## About This Game

### How long can you survive? the ENDLESS HORDE

The horde is here to eat your brain and murder every single one of your scientists. Gather your forces, this is the last stand before we lose the facility! Place guards, close doors, and position traps. Survive as long as you can!

Endless Horde is a Tower Defense game where the enemies spawn in different areas every time you play, don't get too comfortable with a strategy or they will overrun you in no time! Each wave is a different experience.

## FEATURES

- 
- Position your units and secure the perimeter. Think strategically!
  - Level up! Unlock new units and upgrades.
  - Enemy spawns are randomized every wave. You get a different experience every time you play!
  - Place different types of traps. Explode, burn and freeze the undead!
  - Steam achievements support
  - Compete against other players via online leaderboards! Will you be the #1 survivor in the world?

Its an ok game, I guess.

Sort of a unique take on the tower defense genre, but only sorta. Interface could use a slight amount of work.
