## Spheroids Free Download Crack Cocaine

Download ->>> <http://bit.ly/2NFRrwy>

### About This Game

In **Spheroids** you take control of *Lucas*, a jumpy Canadian boy who sets out on an adventure with his crazy scientist companion *Otto* after it's discovered that the government has been hiding alternative universes from the cubic world they live in.

Unfortunately, these alternative universes contain spheres that wish to turn everything round, so it's up to Lucas to save the world from these dangerous aliens: the *Spheroids*.

Throughout **Spheroids** 32 levels, you'll encounter many different environments, with multiple hazards to avoid and enemies to destroy. Items such as the *Modified-Drilling-Hook* Otto lends Lucas will help you traverse the environment with ease, with many more to find throughout.

I don't quite understand why you'd want to play this game when [Bug Butcher does the same thing, has a much more polished UI, costs the same price and doesn't require useless and clunky platforming.](#)

[\[edit: Fixed the Bug Butcher URL\]](#)

[At nearly \\$10, this game is way overpriced. It's more like a choppy android game that someone developer pooped out over a weekend than a real game. Just look at the UI graphics and tell me it doesn't immediately come off as a default stock option from some dime-a-dozen "build a game" program. The developer does seem to try, but their efforts are put in the wrong place, because the "main menu" is just straight up clunky and drives home the point of "just because you can, doesn't mean you should". The game sets a very poor first impression, and it only goes downhill from there.. ASPECTOS POSITIVOS:](#)

[\\*Muy buena banda sonora.](#)

[\\*Control preciso.](#)

[\\*Buena combinaci\u00f3n de diversos estilos de juego, como Super Pang, Gravity Island V Gravity Cat y Mutant Mudds.](#)

[ASPECTOS NEGATIVOS:](#)

[\\*Si mueres los enemigos ya eliminados no vuelven a aparecer, por lo que no representa un desaf\u00edo, pues es posible morir las veces que sea para superar una etapa.](#)

[\\* Muchos bugs en el juego, a veces se pueden aprovechar y a veces no, se debe tener cuidado ya que si se hace uno mal se debe reiniciar la partida por completo.](#)

[\\*El final es horrible, te toma desprevenido, es que esperas m\u00e1s y nada m\u00e1s no, ya ha terminado, un buen boss al cual atacar no caer\u00eda nada mal.. Really nice game, with the right level of difficulty in my opinion! The atmosphere and the musics are great, and the general principle of destroying the spheroids, as old as it is, stays fun throughout the whole game! Only thing that could be improved in my opinion: the texts with the scientists go way too fast to be read, maybe could it be a bit slowed down?](#)
